California Latin@ Water Summit: A Community Response to California’s 100 Year Drought
La Reina Innovation Campus
Friday, December 9, 2016
8:00 am – 4:00 pm

Dr. Alma Herrero, State Water Resources Control Board Chair

State water resources are needed more than ever by our communities and ecosystems that depend on clean, reliable water supplies. California has been experiencing a severe drought for the past five years, impacting every aspect of our lives and economy. This water crisis has highlighted the need for more resilient water systems and policies that ensure sustainable water resources for all Californians.

The California Latin@ Water Summit is a forum for leaders from Latin@ communities and organizations to come together to discuss water issues and solutions that are relevant to their communities.

The summit will feature keynote speakers, panel discussions, and workshops on a variety of topics related to water policy, including:

- Storm Water Capture and Reuse
- Desalination and 2018 Water Bond
- Water Policy
- California Latin@ Water Summit: A Community Response to California’s 100 Year Drought
- The State of CA Drought, Recycling, Conservation, Storm water Capture and Reuse, Desalination and 2018 Water Bond
- William P. McDonnell, Water Use Efficiency Manager from the Metropolitan Water District
- Asm Emeritus Jose Solorio is the Senior Policy Advisor for Nos-...
